N NewtonSchool Studio

MENTOR-LED SOFTWARE ENGINEERING

We build MVPs, internal tools and AI features that ship to production.

Senior engineers lead the architecture and review every line. A focused engineering pod builds it. You get production-grade software with a clean handover, on a fixed scope and timeline.

Scope your project

WHAT WE BUILD

MVPs

Production-ready first versions with real backends and cloud deployment.

Internal tools and ERPs

Dashboards and workflow systems that replace spreadsheets.

AI features

Computer vision, LLM workflows and search with human review.

Backend and cloud

APIs, integrations, CI/CD and infrastructure that scale.

THE DELIVERY MODEL

Mentors

Tech leads and architects own architecture, review every PR and are accountable for quality.

Engineering pod

Student engineers at Newton School of Technology build features in daily sprints under mentor direction.

Delivery coordination

A single point of contact owns timelines and weekly updates.

FIXED-SCOPE PACKAGES

Discovery and Architecture 2-3 weeks	From INR 1.2L
MVP Launch Sprint 4-8 weeks	From INR 4L
Product Acceleration 8-12 weeks	From INR 9L
Managed Product Pod Monthly	From INR 5L/mo

PROOF IN PRODUCTION

99.8%	<200ms	80%	100+
ERP uptime	p95 API	less admin work	production APIs
